Where Z.ai: GLM 5.2 stands

Z.ai: GLM 5.2 ranks #6 of 67 for overall quality and #6 for response speed in the current catalogue.

Its listed input price is \$0.77/1M, output price is \$2.42/1M, and it can work with up to 1M of context at once.

Its strongest areas are coding, math and logic, following instructions.

Response speed

What this comparison shows

The darker bar marks Z.ai: GLM 5.2. The surrounding models provide context from the current catalogue rather than a claim that one model is best for every kind of work.

Response speed is only one factor. Quality, price, context size, and supported inputs should be considered alongside it.

Input price – selected model shown darker

How to read this report

Rankings compare this model with the current 100x Model Match catalogue. A higher quality or speed value is better. A lower price rank means the model is less expensive among the models listed.

This report is generated from the catalogue on July 30, 2026. Missing specifications are omitted rather than estimated.
